

Third Message from the Pleiadian Beings on the Current Situation

received by Pavlina Klemm

Dear Messengers of Light!

We greet you and bring you love, support and information that can help you to understand the further processes that are taking place.

There are countless processes going on at the moment, both physical and subtle, and we wish above all to bring you such information that can serve not only your personal development and overview, but also the development and overview of humanity.

The rays of light and light information from the Cosmos that are coming into your solar system are creating a new matrix system of galactic order.

This system is being formed with the help of original divine imprints and resonates with cosmic tones that serve the entire communication of man and the living beings of Planet Earth with the subtle world and its ethereal beings.

This system, thought out by the divine intelligence, is absolutely perfect.

The human heart, connected to the crystal nets of the Galaxy and to the crystal nets of your planet, receives these sounds and this light information.

Your chakras are receiving new light vibrations, increasing the light vibration of your body. Everything begins to fit together and function properly.

Your timeline, which has deviated from the divine order, is beginning to move in the right direction. Planet Earth will connect to the divine order in the coming days.

In our eyes this development is unstoppable.

This long awaited time is just beginning! The light-filled revolution is dawning right now!

Mankind is awakening from a sleep that has lasted thousands of years. For thousands of years, humanity has existed under a veil of forgetfulness, skepticism and hopelessness.

Humanity is awakening and receiving information and the support of the Light Beings to help it take the next steps in its revolution of consciousness.

Every day cosmic lights, which help humanity to remember its essence and its greatness, come to planet Earth. At the same time these cosmic lights help to free themselves from everything that does not belong to the freedom of humanity.

At the end of March 2020 we could observe how your planet was enveloped in the beautiful, light blue light of Archangel Michael. Along with this blue light came a great many light beings that were sent to your planet by Archangel Michael. Here they have a stronger effect on all people so that they can understand their reality. They help every person who is ready to cleanse himself energetically from the experiences of the past days and weeks.

In these days your earth is shrouded in golden, radiant light. This light protects it and from our perspective it looks as if it is surrounded by beautiful, light-filled cotton wool with wonderful, light-filled structures.

Since the last days of March 2020 there has been an increased reprogramming of human DNA by the divine intelligence. Outdated information that does not belong to your DNA is leaving your planet and its dimensions en masse. Intermediate dimensions have been created by the Beings of Light, through which this useless information can pass. Behind the gates of these intermediate dimensions, this useless information is transformed into light and free energy.

The first light-filled primordial information of your human DNA has been coming to you since the beginning of 2019. But now they are increasingly coming from the divine source, and the divine intelligence is simultaneously encoding this new information concerning your DNA into the element of water. This means that through the drinking of water, information

for the reconstruction of your DNA is also coming into your body! And not only by drinking, but also by bathing you regenerate immensely!

The divine intelligence helps you in many different ways. It helps you thanks to its energy, its light, its love and its light information. She sends a large number of light beings to planet earth to help the human community.

All the prerequisites for entering the new era of humanity have been made available to you by the Divine Intelligence.

Now it is up to each one of you to decide how much energy, light, love and light-filled information she or he will take into the heart. Now it depends on how your personal manifestation of matter and the new reality takes place.

Each of you is important and each of you carries the key to the creation of the new positive future in your heart.

Each of you is the key to the creation of a new positive future!

Now, right now, your actions and decisions for the positive future are most important!

Right now the new positive line for your future is forming.

Code only the most beautiful into your future by your thoughts and by your heart! With your thoughts and with your heart you are creating the first energetic imprints of your new future timeline of humanity!

Become aware of the power and importance of your thoughts, your feelings and your actions. You are creating your new future and your new energetic imprints *right now and in this space.*

Turn to Archangel Michael and his Lightworkers to help you purify the experiences of the last years, the last months, weeks and days. Ask them for cleansing from the artificially created reality.

Meditate and work energetically together with us, the Pleiadian beings, *every evening from 9:00 to 9:20 pm of your local time*, if you wish. We will work with you every evening until the end of April.

And even intensified around the Easter holidays. For this purpose we have sent you a meditation in the first message of March 19, 2020.

Regular transmissions of our information and energy will take place, as always, every Monday from 9:00 to 9:20 pm.

Bless your planet and all beings living on it every day.

Bless every day all men of this planet.

Bless every woman of this planet every day.

Bless every child of this planet every day.

Stay pure and positive in your heart.

Your pure heart is the key to the new positive future.

You are the key ...

Peace with you, peace with us.
