

*A Message from the Pleiadian Beings - May 2022*

*Dear messengers of light,*

*we would like to give you again some information about the energetic processes that are taking place on planet Earth right now. The energetic processes have an impact on the human community and, of course, on each one of you.*

*The new increased inflow of the cosmic Christ energy, which took place in the April days, brings another great wave of purification of various systems of the human community. Many systems that are not built on purity of thought and purity of their sustaining energy will not be able to sustain themselves.*

*Financial systems that are not based on purity are also beginning to slowly but surely fall apart.*

*Many processes on this planet that affect the systems of the human community will take place alongside or outside of you, so to speak, and in the background.*

*Because in the background people and beings are already ready, who have the task to build systems in pure energy and systems without manipulation.*

*Many people and beings have already built new, pure systems in the background and are just waiting for the right moment to realize them.*

*The influx of cosmic energy will result in interpersonal relationships being put to the test and made visible.*

*It will be even clearer to see who has a pure heart and who is still on his path of purification.*

*It will be recognizable who has already let the divine truth enter his heart.*

*It will be recognizable who really feels and lives the divine truth and the purest divine energy and love.*

*Especially those who have the divine purity and love within them will be protected by the purest divine frequencies.*

*The human heart is the key to receive and transmit the divine truth and purity.*

*The Christ energy, which has expanded on planet Earth more than ever before, is also increasingly purifying human matter and preparing it for entry into new dimensions, which have already been prepared for you by the divine intelligence.*

*The entry into new dimensions will take place through a shift in space and time. All it takes is a tiny shift in space and time and you will find yourself in 5D.*

*People who choose to enter new dimensions go through an absolute purification of physical matter so that their system can bear the high vibrational light of the higher dimensions.*

*Your connection to the purest frequencies of Christ Light and Christ Energy helps you shed the remaining negativities of your systems and purify your body so that it is able to transition into the new spaces without problems.*

*And your pure heart is the key to enter the new pure spaces.*

*Your senses are also evolving towards their subtlety and returning to their naturalness thanks to the light-filled, high vibrational Christ energy. Your clairvoyance, clairaudience and clairsentience return to their original function thanks to the cosmic Christ energy.*

*Surely, during this time you will hear different changes in your body and in your perception. You observe that you need more sleep or, on the contrary, less sleep.*

*You observe that sometimes you are more tired and sometimes you feel a great surge of energy within you.*

*You observe that your body may change its mass and that your weight sometimes changes from day to day. Your body needs a certain weight at the moment - sometimes less, sometimes more - in order to successfully release encoded negativities without energetic loss.*

*You observe that your body is asking for food that makes it vibrate with light. It demands light, fresh and blessed food. For the blessing raises the vibration of your food.*

*You observe that it is more possible than ever to communicate with your body and you find out more and more that your body understands you.*

*For your body also has its own energy and is connected to the purest divine laws and to the divine order.*

*Your body is sending you more and more signals and information at this time, which your soul and your spirit - your mind - can understand well.*

*You observe that the joint communication between body, soul and mind is indispensable for the successful realization of the exit from the 3D reality.*

*Your body wants to ascend to higher spaces together with your soul and mind and therefore keeps handing you necessary information for this purpose. Learn to listen to it. Give it rest and bless it. And the cosmic Christ energy that permeates your system helps you to your soul, spirit and body purest vibration.*

*If you wish, you can apply the following affirmation for raising the light vibrations of your body. This affirmation is positively light programmed and each word is tied to the field of Higher Consciousness.*

*Affirmation for your body:*

*"I am contacting the intelligence of my body now and in this space.*

*I am contacting the energy and purity of cosmic Christ love now and in this space.*

*I ask my body in the here and now to receive the cosmic Christ love, Christ energy and Christ purity.*

*The cosmic Christ love, Christ energy and Christ purity flows into every cell of my body.*

*In the here and now, every cell of my body activates its inner crystal sun.*

*My body and all its systems are absolutely tethered to the purest frequencies and order of the Divine Source.*

*I bless my body.*

*I bless myself on all levels of my being.*

*I bless my existence.*

*Thank you, thank you, thank you."*

*We thank you all for your energy work. We thank you for your existence here on this planet. You are on a good path.*

*We are with you and accompany you.*

*Your Pleiadian companions*
